

FORD RACING PERFORMANCE PARTS HELP PACK MORE PUNCH INTO THE 2003 FORD SVT MUSTANG COBRA

Jointly developed by Ford Special Vehicle Team (SVT) and Ford Racing Performance Parts (FRPP), this SVT Mustang Cobra project car showcases bolt-on performance modifications that are readily available in the FRPP catalog and from other aftermarket suppliers. With an estimated 690 horsepower, this modified SVT Cobra is the perfect remedy for performance enthusiasts who feel the stock 390 horsepower Cobra is simply "adequate."
